With reference to the subject cited above, I am to enclose herewith the
Block/City Disaster Management plan in respect of Athgarh NAC.

This is for favour of kind information and necessary action.

Encl. As above

Yours faithfully

Executive Officer
NAC Athgarh

Memo No. 1321 . Date 08.7.25

Copy submitted to the Sub-Collector, Athgarh for favour of kind
information.

Executive Officer
NAC Athgarh

Memo No. 1322 . Date 08.7.25

Copy submitted to the Director Municipal Administration, H & UD
Deptt. Odisha, Bhubaneswar for favour of kind information.

Executive Officer
NAC Athgarh

Disaster Management Plan

2025-26

NOTIFIED AREA COUNCIL, ATHGARH

PREFACE

Natural Disaster is part of our existence. Disaster is not confined to any particular location. Those do not disappear as quickly as they appear. Natural disaster such as, flood, cyclone, drought, hailstorm etc. stall the development process and weakness the socio-economic backbone of people. These cause insurmountable loss to human, animal and natural resources.

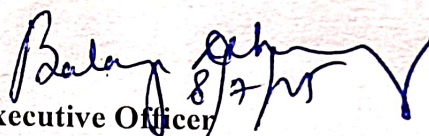

Athgarh NAC is a Flood Prone Area of Cuttack district though flood accurse almost every year the possibilities of cyclone like natural calamities cannot be avoided.

Therefore, a thorough preparation can minimize quantum of these loss and develops confidence among people to tackle these problems with strength. The effectiveness of such strategic plan has been experienced by all in last PHAILIN/FANI, and FLOOD.

On this backdrop, Athgarh NAC Administration has prepared this extensive plan "Disaster Management & Response plan" with a view to improve our efficiency in tackling any unforeseen natural disaster in joint collaboration with PRI members, NGOs and general public.

I wish this effort a great success.

Balaya Dehuri, (OMAS.)

Executive Officer
NAC Athgarh

Early Warning Dissemination Protocol

Chapter VI

Reconstruction & Rehabilitation

6.1 Post Disaster Needs Assessment (Write a Paragraph)

- Housing

- Infrastructure

Infrastructure is composed of public and private physical structures such as roads, railways, bridges, tunnels, water supply, sewers, electrical grids. Infrastructure is the basic facilities, and system serving a country, city or area such as transportation, power plants and school and facilities necessary for its economy, household and firm to function.

- Livelihoods

Urban area, in a nutshell, are defined as area where modernization took place. these areas generally consist of an extensive population. For instance, metropolitan cities such as Bangalore, New Delhi, Mumbai and so on are urban areas, livelihood on the other hand is simply defined as the lifestyle of an individual or their occupation. thus, the civics chapter on rural and urban livelihoods covers the basic details into distinguishing from of urban livelihood. You will learn about the lifestyle of different people, jobs available in the industry and the functioning of different urban area or cities.

Chapter VII

Mitigation Plan

7.1 Sector wise Vulnerability Reduction Measures considering ward DM plans

Once the ward level committee are formed at the ward level and the committee shall sit to discuss the matter related to disaster management and identify their problems & needs then only, they shall be able to suggest for any required intervention in deferent wards.

7.2 Community level Mitigation Pogram

Include hazard specific mitigation measures and schemes Proposed in the WARD DMP

Sl No	Ward	Hazard Specific Mitigation Plan for	Required Intervention	Executing Departments	Fund Required	Time Frame
1.						

7.3 Short Term Mitigation Plan:

Core committee has suggested the following short term mitigation plan in the city area

- Proper Drainage System to clear the water logging area due to heavy rain.
- Capacity building of municipality staffs / councilors on different aspect of disaster management.
- Training of volunteers from different wards of different aspects of disaster management
- Awareness campaigns among the students on heat wave, lightning, snakebite etc.
- Muck drills for public awareness

7.4 Medium term Mitigation Plan:

Core committee has suggested the following medium term mitigation plan in the city area:

- Community Toilets
- Shelter for urban homeless people

7.5 Long Term Mitigation Plan: (100 Words)

Structural Measures.

- Cyclone Shelters
- UPHC with all facilities
- Pipe water supply / Mega water supply to each house hold

Non-Structural Measures.

- Training and capacity building for each ward level committee & volunteers
- Awareness campaigns for different types of disasters throughout the year

7.6 Development Schemes and Disaster Mitigation

Identify the scheme/projects running in the Ward and segregate them relevant to Mitigation and Preparedness measures
